BISLERI HEALTH • BOARD PRESENTATION

Complete 8-Speaker Master Script, Multimedia Cues & Executive Defense Strategy

8 Speakers • 16–20 Min Runtime

Target Audience: Bisleri Executive Leadership Team

Core Focus: 100% Bisleri Health (₹40–₹60 Pivot)

Interactive Flagship Pavilion & OOH Transit

PRESENTATION GROUND RULES & HANDOFF PROTOCOL

Each speaker is allotted precisely **2.0 to 2.5 minutes**. Visual assets, local video clips (**TGM.mp4**, **InterviewFilm_BisleriHealth.mp4**, **BisleriHealth_ProductAd.mp4**, **logo_animation.webp**), and interactive HTML mockups are cued with exact timestamps. Maintain clear vocal transitions using the bolded *Handoff Cues* to sustain boardroom momentum.

• **Master Deck:** `index.html` | • **Pavilion Walkthrough:** `walkthrough.html` | • **Key Financial Target:** ₹10 Cr Budget • 3.5x ROMI • +18% Blended Gross Margin

SPEAKER 1

Brand Evolution, Commodity Trap & Strategic Pivot

⏱ 2.0 MIN

LOGO_ANIMATION.WEBP

🎬 **STAGE DIRECTION:** *Room is dimly lit. Projection screen displays the classic Bisleri Emerald wordmark on Slide 2 ("What Is New with Bisleri"). Speaker 1 stands center-stage addressing the leadership board.*

"Leadership team, for half a century, this board has successfully ensured that in India, water means Bisleri. We dominate 60% of the packaged water market and drive ₹3,218 Crore in revenue. But on the ground, we are fighting over coins. We are constantly defending our territory in an exhausting ₹15 versus ₹20 price war against local, unorganized competitors. We have commoditized our own excellence.

Today, we step out of that price war. We are shifting from selling a ₹20 safe utility into owning a ₹40 to ₹60 margin-shielded functional wellness portfolio."

🎬 **STAGE DIRECTION:** *Screen fades black for 1.5 seconds. Replay logo motion triggers* `logo_animation.webp` *. The Heritage Emerald green fluidly twists into Wellness Rose pink, revealing the human silhouette within the drop, ending on the primary vertical logo card.*

"Welcome to **Bisleri Health**. The symbol you see before you is '*The Drop That Holds A Person.*' It embodies our 50-year heritage of trust while answering the future of restorative vitality. Our visual palette unites **Heritage Emerald** (50 years of Indian purity), **Wellness Rose** (cellular vitality and care), and **Mineral Alabaster** (freshness and balance).

To understand the real person who inspired this transformation, I hand over to Speaker 2 to introduce our core audience."

Market Reality	The Value Shift	Brand Identity
60% Category share, ₹3,218 Cr revenue under price war margin pressure.	From ₹20 commodity utility to ₹40–₹60 functional health habit.	'The Drop That Holds A Person' • Emerald, Rose, Alabaster palette.

TRANSITION CUE *"I hand over to Speaker 2 to introduce our core audience and the urban paradox."*

SPEAKER 2

Target Audience (Tara) & The Urban Hydration Paradox

⏱ 2.5 MIN

📼 YOUTUBE: TARA'S NONSTOP ROUTINE (DWCT5NBSUKS)

🎬 **STAGE DIRECTION:** *Slide 6 transitions in. The screen showcases the three distinct photographic portraits of Tara: Movement, Workday, and Evening Restoration, leading into the large TG Theater Frame.*

"Thank you, Speaker 1. This entire strategic pivot is built for **Tara**. She is 31, an urban corporate professional, and represents a high-disposable-income demographic that our brand has historically under-monetized.

Tara's day exists in three non-negotiable states: **01. Morning Movement** — sweat, road runs, and cardio where electrolytes deplete rapidly; **02. Mindful Workday** — back-to-back desk sessions, air-conditioned dehydration, and screen fatigue; and **03. Evening Restoration** — cellular wind-down, skin elasticity, and inner peace."

🎬 **STAGE DIRECTION:** *Speaker clicks play on the large center theater card: the YouTube film (* `dWcT5NbsUks` *) (Tara's Non-Stop Routine Launch Film) begins playing on screen.*

> *"We don't forget water because we don't care; we forget because life doesn't wait."*

"As the film demonstrates, this is **The Urban Hydration Paradox**: professionals carry water bottles everywhere, yet live in chronic, low-grade cellular dehydration because plain water offers no sensory reward or physiological trigger.

Our **Purpose** is to turn routine sips into conscious acts of everyday vitality. Our **Mission** is to deliver precision functional hydration backed by the 50-year purity India trusts. And our **Vision** is to redefine India's water category from safe utility into a thriving health habit.

Now, Speaker 3 will break down our market positioning and lifecycle strategy."

Core Persona: Tara (31)	The 3 Daily Moments	Strategic Foundations
Metro earner, fitness enthusiast, high stress, under-hydrated.	Morning Movement • Mindful Workday • Evening Restoration.	Purpose, Mission, and Vision grounding functional hydration.

TRANSITION CUE *"Now, Speaker 3 will break down our market positioning and lifecycle strategy."*

SPEAKER 3

Strategic Frameworks: STP Model & Product Life Cycle

⏱ 2.0 MIN

📊 SLIDE 9 & 10 STP/PLC

🎬 **STAGE DIRECTION:** *Slide 9 (STP Model), Slide 10 (Brand Positioning Statement), and Slide 11 (Product Life Cycle) appear on screen with clear infographic tiles.*

"Our STP framework grounds this ambition in actionable market data.

Segmentation: We segment along three core vectors: *Demographic:* 22–45-year-old urban earners with disposable income; *Psychographic:* proactive wellness seekers who balance mental clarity and fitness; *Behavioral:* consumers navigating high-mobility commutes, fitness routines, and desk-bound fatigue.

Targeting: We hyper-focus on Tier 1 Metros and premium urban clusters who already purchase wellness supplements and show zero resistance to paying ₹40 to ₹60 for certified functional efficacy.

> *"For health-conscious urban Indians seeking functional well-being in their non-stop routines, Bisleri Health is the daily hydration choice that delivers certified active minerals, electrolytes, and collagen benefits, because it merges 50 years of trusted Indian purity with modern restorative science."*

Looking at our **Product Life Cycle (PLC)**: classic Bisleri packaged water is currently in late maturity—it is our indispensable cash cow generating reliable operating cash flows. But its growth is flattening under ₹15 discounting. **Bisleri Health** represents our aggressive re-entry into the steep growth introductory curve, leveraging our unbeatable 6,000-distributor logistics to extract 50%+ margins.

Let's examine the real ground-level data behind this strategy with Speaker 4."

Segmentation	Positioning Statement	PLC Growth Curve
Demographic (22–45), Psychographic (wellness), Behavioral (active).	50-yr trusted purity + active restorative science for non-stop lives.	Classic Bisleri cash cow funds Bisleri Health high-margin expansion.

TRANSITION CUE *"Let's examine the real ground-level data behind this strategy with Speaker 4."*

SPEAKER 4

Field Ethnography & Hydration Culture

⏱ 2.5 MIN

📼 YOUTUBE: RESEARCH FILM (XRWCKJGZQ0G)

🎬 **STAGE DIRECTION:** *Slide 7 displays the Research Theater frame. Below it, the three Real Voices cards appear with animated audio waveforms.*

"We did not build this strategy in an ivory tower. We deployed rigorous field ethnography across **1,200 urban respondents** in Delhi NCR, Mumbai, and Bengaluru.

Our finding was unanimous: passive, plain bottled water lacks the sensory reward and timely replenishment cues required by busy urbanites. People carry bottles religiously, but they only drink when the dehydration headache has already arrived."

🎬 **STAGE DIRECTION:** *Speaker triggers playback of the YouTube research film (* `XRwckJGZQ0g` *). Screen highlights authentic respondent quotes with audio waveform indicators.*

"You just witnessed real consumer voices: **Aarav (21, engineering student & runner):** '*I never forget my bottle, but plain water doesn't restore my energy after sprints.*' **Tara (33, product manager):** '*...and then I realise that I forgot to drink the water until my 4 PM migraine.*' **Ravi (24, sales executive):** '*Electrolytes make an immediate, tangible difference to my 3 PM slump.*'

To make hydration non-negotiable, we are introducing an experiential **Hydration & Tasting Culture**: certified Water Sommelier mineral flights comparing TDS and alkalinity mouthfeel, alongside zero-sugar **Cryo-Chill** molecular mist mocktails. Hydration ceases to be a chore; it becomes a sensory daily ritual.

To see how our three product pillars deliver on this promise, here is Speaker 5."

1,200 Field Interviews	Consumer Barrier	Sommelier Flights
Corporate parks, gyms, transit hubs across 3 major metros.	Water without functional taste fails to prompt timely intake.	TDS/alkalinity flights & Cryo-Chill zero-sugar functional mocktails.

TRANSITION CUE *"To see how our three product pillars deliver on this promise, here is Speaker 5."*

SPEAKER 5

Product Portfolio, Innovation Range & Pack Engineering

⏱ 2.5 MIN

📽 YOUTUBE: SOCIAL AD (KQVRXZ3AL84) • PRODUCT AD (0YAHZCLJFVG)

🎬 **STAGE DIRECTION:** *Slide 12 opens with the three-product hero render, showcasing the YouTube Social Ad (`KQVRxZ3AL84`) placed directly above the YouTube Product Commercial (`0yaHzCLJFvg`), followed by the interactive pack hotspot showcase.*

"Different needs. One step towards taking better care."

"This is the Bisleri Health portfolio—engineered around three scientifically formulated pillars matched directly to the three moments of Tara's day:

01. Bisleri Active (Electrolyte+ Performance): Packaged in a sleek 330ml recyclable aluminium can. Formulated with 500mg of bio-available sodium, potassium, and magnesium. Designed for post-workout sweat replenishment and rapid cellular rehydration without artificial sugars.

02. Bisleri Life (Everyday Mineral & Low Sodium): Delivered in a sustainable, FSC-certified 500ml paper carton. Featuring balanced mineral hydration and low sodium, perfect for daily desk consumption and children's school packs.

03. Bisleri Wellness (Collagen & Inner Glow): Housed in a premium 500ml UV-protected tinted glass bottle. Infused with hydrolyzed marine collagen peptides and Vitamin C to support skin elasticity, tissue repair, and evening wind-down."

🎬 **STAGE DIRECTION:** *Speaker clicks a pulsating hotspot on the pack display to showcase ingredient transparency (sodium, potassium, collagen) and packaging sustainability.*

"Notice our industrial design: every pack is 100% recyclable or paper-based, completely eliminating cheap PET plastic perception. We have turned a throwaway commodity into an aesthetic desktop accessory.

Next, Speaker 6 will walk us through our financial allocation and budget strategy."

Active (Aluminium Can)	Life (Paper Carton)	Wellness (Glass Bottle)
500mg Electrolytes (Na, K, Mg) for athletic and workout replenishment.	Low-sodium everyday mineral balance in eco-friendly packaging.	Marine Collagen + Vit C for skin elasticity and evening glow.

TRANSITION CUE *"Next, Speaker 6 will walk us through our financial allocation and budget strategy."*

SPEAKER 6

Financial Allocation, Unit Economics & Budget Strategy

⏱ 2.0 MIN

📊 SLIDE 15 BUDGET MATRIX

🎬 **STAGE DIRECTION:** *Slide 15 displays the interactive ₹10 Crore financial allocation dashboard with four color-coded allocation bars and Month 6 ROI projections.*

"To secure category leadership immediately and build an unassailable moat, we are deploying a total launch investment of **₹10 Crore** phased strategically over the initial 90 days.

This is structured as an agile **₹7.00 Crore 12-Week Launch Operations Budget**, paired with a dedicated **₹3.00 Crore Social Media Campaign**:

Core 12-Week Launch Operations (₹7.00 Crore):
• **40% (₹2.80 Crore) • Digital Marketing:** Targeted performance ads, routine integration reels, creator partnerships, search engine marketing, and co-funded top-of-search banners on Blinkit, Zepto, and Instamart.
• **30% (₹2.10 Crore) • Events & Community:** Constructing our immersive sensory pop-up dome at DLF CyberHub, marathon hydration lounges, and workplace mindful break sampling.
• **20% (₹1.40 Crore) • Other / Retail & OOH:** Subway escalator triptychs and platform lightboxes across 24 prime metro stations, plus deploying chilled IoT smart vending kiosks in premium gyms.
• **10% (₹70.0 Lakh / ₹0.70 Crore) • PR Activities:** Tier-1 business and lifestyle media roundtables, health editor preview flights, and VIP mystery countdown press kits.

Dedicated Social Media Campaign (₹3.00 Crore):
• Powering our nationwide digital countdown blitz—The Mystery Countdown Drop, viral routine-transformation challenges, creator unboxings, and real-time social community engagement across Instagram and YouTube.

Unit Economics & Margins: While our ₹20 commodity line yields 12–15% gross margin, Bisleri Health operates at **52% to 58% gross margin**. We project a **3.5x Return on Marketing Investment (ROMI)** by Month 6, expanding our company's blended gross margin by **+18%**.

Let's see how this capital translates into real-world consumer touchpoints with Speaker 7."

40% • ₹2.80 Cr Digital
Social ads, creator partnerships • 10-min Blinkit/Zepto quick-commerce sync.

30% • ₹2.10 Cr Events
Flagship Sensory Dome at CyberHub • Marathon lounges • 200k samples.

20% • ₹1.40 Cr Retail & OOH
Metro escalator triptychs, 150+ IoT gym kiosks • Modern trade coolers.

10% • ₹70.0 L PR
Business & lifestyle media roundtables • Health editor preview flights.

₹3.00 Cr Social Media
Nationwide viral countdown blitz • Tara routine challenge • Total = ₹10 Cr.

TRANSITION CUE *"Let's see how this capital translates into real-world consumer touchpoints with Speaker 7."*

SPEAKER 7

360° Omnichannel Campaign & Retail Touchpoints

⏱ 2.5 MIN

SOCIAL AD.MP4 • OOH

STAGE DIRECTION: *Slide 17 displays the 4-phase launch calendar. On the right, the interactive Instagram mobile mockup plays the Social Ad (* `KQVRxZ3AL84` *). Slides 19 & 21 follow with the subway triptych and smart vending kiosk photos.*

"We surround Tara with an omnichannel narrative across a synchronized four-phase launch:
Phase 1: Anticipation: Mystery teasers ('*When do you pause?*') and interactive polling ('*Non-stop vs Balanced?*').
Phase 2: Launch Reveal: Unveiling the 3 Pillars through '*Life Doesn't Wait, Hydrate with Purpose*'.
Phase 3: Range Education: Ingredient deep-dives for Active, Life, and Wellness.
Phase 4: Instant Conversion: 10-minute instant delivery buttons directly on Instagram and LinkedIn.

High-Impact Transit OOH: In high-density metro hubs, we have deployed our **Subway Escalator Triptych**. As commuters ascend, they experience Active, Life, and Wellness in sequence, capturing **42 seconds of uninterrupted dwell time** across 1.8 Million daily riders, terminating at our high-impact platform lightboxes.

Smart Hydration Vending Kiosks: Simultaneously, we have deployed automated, chilled IoT dispensers inside premium fitness chains like Cult.fit and corporate campuses. We place the product precisely where the sweat, stress, and screen fatigue happen.

Finally, Speaker 8 will take us inside our experiential flagship launch event."

4-Phase Digital Blitz
Tease → Launch Reveal → Range Education → 10-Min Delivery.

Escalator Triptych
42-second dwell time across 24 prime metro interchange stations.

Smart IoT Vending
Chilled, cashless dispensers in 150+ gyms and corporate lobbies.

TRANSITION CUE *"Finally, Speaker 8 will take us inside our experiential flagship launch event."*

SPEAKER 8

Experiential Flagship Pavilion & Executive Closing

⏱ 2.5 MIN

🌐 WALKTHROUGH.HTML

🎬 **STAGE DIRECTION:** *Speaker 8 opens the live* `walkthrough.html` *page. The interactive 3D architectural viewer navigates the four zones of the Bisleri Health Flagship Pavilion.*

"To cement our wellness credentials and generate unmissable social media earned reach, we are introducing the **Bisleri Health Flagship Hydration Pavilion**.

Let's walk through the physical experience:
Zone 1: The Kinetic Entrance Portal: An 18°C ultrasonic fine mineral mist archway designed to reset urban stress and cool down commuters before they cross the threshold.
Zone 2: The 360° Cellular Immersion Dome: An 8K projection dome paired with 432Hz binaural acoustic frequencies, illustrating cellular hydration from the inside out.
Zone 3: Three Pillars Discovery Bar: A craft functional mixology bar featuring certified water sommeliers offering TDS mineral flights and liquid-nitrogen frosted Cryo-Chill mocktails.
Zone 4: Smart Hydration Lab: Utilizing non-invasive galvanic skin response and dermal capacitance scanners, consumers receive an instant bio-hydration score and a personalized product prescription.

> *"Leadership team, Bisleri Health is not just about adding another SKU to our trucks. We are taking a ₹20 commodity and transforming it into India's most trusted, premium daily health habit. We built the category of pure water; now we will own the category of functional vitality."*

Thank you. We are now open for the board's questions."

Zone 1 & 2: Reset & Immersion
18°C Ultrasonic mist archway • 360° 8K cellular projection dome.

Zone 3: Discovery Bar
Sommelier mineral flights • Cryo-Chill zero-sugar mocktails.

Zone 4: Bio-Hydration Lab
Skin capacitance scanners delivering personalized pack matching.

TRANSITION CUE *"Thank you. We are now open for the board's questions."*

EXECUTIVE BOARD Q&A DEFENSE GUIDE (PRE-EMPTIVE STRATEGY)

❓ Q1. Won’t consumers resist paying ₹40 to ₹60 when regular Bisleri is ₹20?

Defense (Speaker 1 / 3 / 6): "Consumers resist paying ₹40 for *water*; they eagerly pay ₹60 to ₹150 for *functional benefits*—as demonstrated by Red Bull (₹125), coconut water (₹60), and electrolyte powders (₹30+). Bisleri Health is not competing with commodity water bottles in grocery crates; it is competing in the quick-commerce wellness basket against RTD nutraceuticals and sports drinks. Furthermore, our premium recyclable packaging (can, carton, glass) creates immediate visual and tactile value differentiation."

❓ Q2. How will our manufacturing supply chain handle cans, paper cartons, and glass bottles alongside standard PET?

Defense (Speaker 5 / 6): "Phase 1 utilizes specialized co-packing agreements with established canning (aluminium) and aseptic carton (Tetra Pak style) facilities in Mumbai and NCR, requiring zero immediate CAPEX on new machinery. Our ₹10 Cr budget funds working capital and tooling. As volumes hit Month 6 milestones (120,000 units/day), we will transition high-speed lines in our existing Pune and Greater Noida plants into dedicated functional bottling lines."

❓ Q3. What prevents local copycats from launching cheap 'electrolyte waters' at ₹25?

Defense (Speaker 1 / 4): "Unorganized players lack three things: FSSAI nutraceutical grade certifications, scientific clinical credibility, and most importantly, Bisleri’s 50-year heritage of trust. In functional health, consumers are terrified of counterfeit or substandard electrolyte formulations. Bisleri’s name guarantees pharmaceutical-grade purity that no local player can replicate."

❓ Q4. How do Smart Vending Kiosks justify their operational maintenance and restocking costs?

Defense (Speaker 6 / 7): "Our Smart Vending Kiosks are equipped with real-time IoT weight and telemetry sensors connected to our local distribution ERP. Route trucks already service nearby grocery and retail outlets daily; restocking a kiosk requires no dedicated logistics run. With an average of 80 cans sold per gym/campus kiosk per day at ₹40, each machine breaks even on operating lease within 4.2 months."
